Evaluation criteria

- **Emailed discussion points:** Relevance (relevant to the article?), Elaboration (superficial, or required thinking?) Relatedness (put in wider context?), Constructiveness (does a critique provide alternatives?), Timeliness (submitted on time?)
- **Discussions in class:** Activity (contributed actively to discussions?), Relevance (relevant to the topic?), Relatedness (monologue, or interactive?)
- **Moderation:** Sorting (sorted questions into logical groups and explained the topics?), Discussion balance (created balanced space for everybody?) Time management and organisation (started/finished on time? sent the sorted questions in advance?)
- **Peer activity plan:** Details (clear idea about form and content?), Timeliness (submitted on time?)
- **Peer activity presentation:** Relevance (relevant to the course?), Up-to-dateness (not too old and well-known?), Clarity (presented clearly?), Cooperation (did the group cooperate?), Interactivity (actively engaged audience?), Overall quality
- **Integration reflection:** Personal engagement, Reflection on the process and yourself, Elaboration, Clarity
